Total tuition is determined by multiplying the number of hours in a program by $2.25 per hour. There are other costs (books, fees, insurance, etc.) that vary by program area. Some programs also have costs that are not payable to the school (such as physical exams, uniforms, safety clothing, tools, etc.). The total tuition and other costs are payable upon admittance to the program. For the convenience of our students, a monthly payment schedule is available as shown below. Students on financial assistance programs must work out payment schedules on an individual basis with the Financial Assistance Secretary. Prices shown are approximate and are subject to change. Please see the Financial Assistance Secretary for exact cost.
