

Carver Career and Technical Education Center  
Tuition/Fee Information  
2016/2017 School Year

Total tuition is determined by multiplying the number of hours in a program by \$2.75 per hour. There are other costs (books, fees, etc.) that vary by program area. Some programs also have costs that are not payable to the school (such as physical exams, uniforms, safety clothing, tools, etc.). The total tuition and other costs are payable upon admittance to the program. For the convenience of our students, a monthly payment schedule is available as shown below. Students on financial assistance programs must work out payment schedules on an individual basis with the Financial Assistance Secretary. Prices shown are approximate and are subject to change. Please see the Financial Assistance Secretary for exact cost.

Program	Total All Cost	Tuition and Fees (Payable to School)	Estimated Outside Cost (Not payable to School)	Estimated # of students
Allied Health Sciences- <i>Dental Assisting</i>	\$4,475	\$4,175	\$300 (Hep. B shot, scrubs, shoes)	30
Pet Grooming and Plant Systems*	\$3,573	\$3,573	None	37
Automotive Technology	\$4,917	\$4,517	\$400 (Tools)	30
